

ERA Computers & Consulting Custom Laptops - Intel Based

These laptops are custom built to client specifications. ERA Computers & Consulting (ERACC) orders these from one of our distributors with the hardware options requested by our client. When the laptop arrives at our company ERACC installs the operating system(s) required by the end-user. These are an ERACC branded laptop.

The Specification and Options below are for the current line of laptops as of April 2011. This list will change as new models come available. Contact ERACC for the latest model sheet or for a quote with your choice of options.
